First -

First to introduce balloon tires and steel disc wheels to American highways.

First to introduce to American engineers the superior overhead valve and camshaft principle common to nearly all European fine cars and aeroplanes.

First—and still unapproached in affecting those smart and rakish graces of line and design that distinguish the finer motor cars of England, France and Italy.

First, certainly, to unite power and beauty, speed and dependability in a vehicle that is not prohibitive in cost.

Wills Sainte Claire is now the lowest priced car in the fine car field.

Progress in Education

There are those who fall to perceive ben n'n in the manch of propress who will view with concern the iboliminat of the whim teachers' Institute in Marion county. Act this etcp has been taken in wany Ohio countin and the prospects are that before many years tie institute will be (ilminuted excisable)

There always was considerable doubt in the trinds of many educational authorities regarding the officace of those annual gubulings of teachers and school officials (gettaints th., programs are beneficial but whether the bone hts are commensurate with the expense and the time and effort consumed is a question in dispute which has assumed increased prom inence during recent years

Teachers mertings conducted periodically during the year are in all likelihood more than sufficient as a substitute for the annual county gathering. Questions can be discussed and problems solved as they arise and when decis tons are most timelt. This is impossible in a bearly meeting

Liducational system and programs are con stantly moving forward in the process no riethods and ideas supplied the old. The country would be in a wid slight if this condillon did not praval. Camel cigarettes brought new enjoyment to millions

No other cigarette made is so overwhelmingly preferred as The exchange of Camels between strangers is a friendly introduction to closer understanding. Because of Camel goodness, of universal Camel preference, the call to "Have a Camel" is password to friendliness everywhere.

Camel's success, the greatest in the history of smoking, is founded

fast on quality. Camels are rolled of the choicest tobaccos grown. Camel. No other cigarette is held And these finest tobaccos are given in favor by so many millions of a blending found in no other cigaexperienced and successful men. rette. If you haven't tried them, Camels will be a smoke revelation to you, for they never tire the taste, never leave a cigaretty after-taste.

That's why we suggest that you comfort and cheer your taste with the utmost in smoking enjoyment. The world's largest tobacco organization invites you to-

Over two billion smoked a month!

one way to get it!

ONCE you learn the refreshing goodness of natural tobacco traste in a cigarette, nothing else will satisfy you

And the only way to get it is from the tobaccos themselves It calls for the finest qualities of leaf, both Turkish and Domestic, and the rarest skill in blending them, but - man, the result does speak for itself! Look at Chester. field's record-and "draw your own conclusions!"

Such popularity must be deserved

Let Homes be Built for Comfort

thomes should be built for comfort, convenience and its ability. Too many homes totals are being constructed without a proper program embodyling three necessars and principal aims. Women maturally are more expert in pleking out the essential conveniences for a home. Every woman when buying a home looks for convenience by every time and she expects to have a home which is properly wired for electricity.

The New ESSEX "6" COACH

With All-Steel, Bolted and Riveted, Clear Vision Body The Product of Essex' New \$10,000,000 Body Plant

"At Your Door

Standard equipment includes Ameometic Windshield Cleacer, Rear View Mirror, Transmission Lock (built in) Radiator Shut test, Moro-Meter Combination Boop and Tail Light

Many of these advantages you will recognize ataglance Butyou will have higher appreciation of their meaning when you know that a plant of 18 acres which with equipment approximated a cost of 10,000,000, was first built and that special machinery had to be designed, to make possible the New Coach your dealer is now showing.

It is all steel, bolted and riveted, and so rigid that squeaks, rattles and distortions, are as unlikely as in a steel building Doors are so hung that a man may hang on an open door while the car is being driven over rough roads,

And it is so designed and constructed as to permit the use in a totally new manner of a highbaked enamel, most lustrous and lasting finish. There has been constant im-

the accumulation of the resources, the skill that have resulted from the building of 350,000 Esse: this car which we ask you to inspect and to drive as the best looking, best value, best Essex
